History Sweeper Crack + Product Key Full Download [32|64bit]

===== History Sweeper Cracked Version enables you to delete Internet traces, such as temporary files, browsing history, Internet Explorer autocomplete and cookies from your computer. You can also clean emails from your inbox and all the traces that may help identify you. Additionally, History Sweeper can clean Internet Explorer, MSN, Firefox, AOL, Windows Media Player and RealPlayer traces. We also suggest it for you to clean the Windows find, Run and network history, temporary file folder, Recycle Bin and last logon users. The software is easy to use and has a friendly user interface that doesn't require any advanced knowledge. We have tested the new version in Windows 10 64-bit. The program was able to close all the web browsers and open the system as it should. However, even if it works well, we still feel that it's a very simple tool for cleaning Internet traces and we would like it to be integrated with other cleaning tools to create a top-notch cleaning solution. Sweep Sweeper is a program to delete Microsoft Office documents, chats and emails which contain sensitive information. The software has an advanced interface which enables you to access options, much like the Windows menus. In addition, you can select between six data providers: Yahoo, Google, Hotmail, iCloud, Facebook and Outlook.com We were able to access the software's help file and activate Deep sweep. It would have been better if we had been able to set the program to perform the cleaning task automatically, but this was perhaps not possible. In addition to the standard sweeping interface, the software includes the options to set time interval between sweeps and allow the program to operate in the background. Another interesting feature of Sweep Sweeper is that you can also delete chats on MSN, Gmail, Yahoo, Facebook and iCloud from within the program. Now, even if the Deep sweep option doesn't sound important to you, it's still a great help to automatically remove sensitive information from your computer, plus it's a quick solution for keeping your system clean. Sweep Sweeper Description: ===== Sweep Sweeper is a program that will enable you to quickly and easily delete sensitive information. It automatically deletes Internet traces, such as temporary files, history, cookies and autocomplete information from the Internet browsers. The application also enables you to clean Skype chats, MSN, Gmail, Facebook and iCloud chat logs as well as the entire Outlook.com email account. The Sweep Swe
